### TOWN MEETING.

The annual ratepayers' meeting of the Town of Red Deer will be held in the Lyric Theatre, tomorrow (Thursday) evening at eight o'clock, when the financial report of the Town will be presented and matters of vital interest to the ratepayers will be discussed. It is hoped that there will be a large attendance of citizens as this meeting is the place to air all grievances against the city management, and any ratepayer desirous of airing his views on any particular question or who has a bone to pick with the Council, should be on hand and make his kick, or for ever after hold his peace.

### THE LATE MR. PORTER.

The Sherbrooke Daily Record, in speaking of the death of James Porter, father of L. J. Porter, says: "The news of Mr. James Porter's death last Friday, came as a distinct shock to the community, as up to the time of that sad event, the deceased gentleman had enjoyed the best of health. In everything that was started for the improvement of the community, irrespective of creeds, Mr. Porter took an active part in its successful accomplishment. For over twenty years he occupied the chair as mayor of Uberton, to the satisfaction of everyone. Owing to his profound knowledge of the Municipal Code, he successfully guided the country through all its legal difficulties, so that during his long term as mayor, no lawsuits were entered against the town, consequently the ratepayers' money was not spent in law. He was also for nearly as long a time a member of the Board of School Commissioners. He was a consistent member of the Methodist church, which in his death loses a devoted member. His place in our midst is vacant, but we sorrow not, for we know he has gone before, to be with the Master he so faithfully served amongst us."

### Farewell Banquet

On the occasion of his leaving for the Old Country on a visit, Mr. L. W. Lamont, the genial camp draftsman of the Alberta Central Railway, was tendered an informal banquet by the various members of the field and office staffs, last Friday evening, 25th instant, at Forrester's tea rooms, News block. After doing ample justice to the glorious spread, a pleasant hour was spent with songs and gramophone selections. The following is the toast list: "Our toast," proposed by A. Hutton, replied to by E. A. Browne. "Timekeepers," proposed by R. Brydie, replied to by R. G. Dawe. "Our Guest," proposed by R. G. Dawe. "Our Worthy Chief," proposed by R. Brydie, replied to by R. G. Dawe. "Liverymen," proposed by F. Cruckshank, replied to by J. Cruckshank and A. Forrester. "Mine Host and Hostess," proposed by Mr. McCann and replied to by Mr. Dawe, for Mr. and Mrs. Forrester. "Office staff," proposed by A. E. Rowbotham and replied to by A. D. Hunkinson. The evening was brought to a close by the singing of "God Save the King" and "Auld Land Syne."

The following is a full list of those present—R. G. Dawe, chairman; A. D. Hunkinson, R. Brydie, F. C. A. Macklin, A. Hutton, A. E. Rowbotham, S. F. Gastrel, E. C. Leach, D. S. Spence, J. D. McKenna, A. J. Browne, J. Brumpton, A. Forrester, J. Cruckshank, W. S. McKibbin, W. H. McCann, G. W. F. Evans, A. T. Balme, T. Emmerson, and I. W. Lamont.

### POPLAR RIDGE.

Rev. Barnes occupied the pulpit last Sunday afternoon and delivered one of his usual very eloquent sermons, taking for his text the fourth chapter of Proverbs, twenty-third verse.

Mr. Edward Walker has returned to the neighborhood.

Columbus Larson, of Coney, Alta., was up looking after his property.

One of our very popular young ladies, Miss Pearl Atkins, eldest daughter of Mr. W. R. Atkins, was united in the bonds of matrimony to George Emery Woods, a very energetic young homesteader of Pitcoo, Alta. last Wednesday evening at 7 o'clock, the ceremony taking place at the Methodist parsonage of Red Deer. Rev. Huestis performing the ceremony. The bride was the recipient of many very pretty and useful gifts. The gift of the groom was a beautiful gold brooch set with diamonds. After spending the week visiting friends in the neighborhood, the happy couple left for their home amid showers of good wishes from their large circle of friends.

William Withel, of Calgary, is up on a business trip.

Creswell Willett, of Pitcoo, Alta., was here last week on very important business.

### The New Council

Before another issue nominations will take place to fill vacancies on the Council and School Board. Two members retire from the School Board this year namely W. E. Payne and T. L. Gault and they will probably both be candidates for re-election and as they are both gentlemen of broad views and excellent ability there is no doubt in our mind of their return to the Board. The retiring Councilors are R. B. Welliver, F. H. Tallman and Reg. Alford. Mr. Tallman states he will withdraw from the Council, as his business requires his undivided attention. Mr. Alford will again be a candidate and Mr. Welliver will in all probability be a candidate for the Mayoralty. This will leave two seats vacant on the Council and the names of several gentlemen have been connected with the vacancies, namely R. C. Brumpton, W. J. Botterill, W. E. Lord, J. H. Menzies and others, but so far no definite announcement has been made as for the Mayoralty R. C. Brumpton and B. Welliver have been mentioned, but Mr. Brumpton desires us to state that he is not in the field for Mayoralty honors and Mr. Welliver has not even announced himself as being definitely in the field. True he informed the Advocate last week he was not breaking his neck for any position, but was willing if the people wanted him, which was a very poor way of expressing himself, and would lose him votes if he contests the seat. The Mayor's chair is the highest position in the gift of the people of Red Deer and should not be made lightly of. We do not think Councilor Welliver intended it should be put just that way. We feel Mr. Welliver is the strongest man in sight for the position and we believe he would fill the position with credit to himself and the town. Mayor McKee will move out west to his ranch at an early date. Councilor Tallman has given splendid service on the Council and was entitled to the Mayor's chair by seniority of membership but he felt he could not devote the time from his business for the arduous duties of Mayor and Commissioner and therefore retired full of honors after serving the town for a number of years.

### General Unrest

Alberta is not alone in having turbulent times over political matters. In view of the Nationalist uprising in Arizabaska the Democratic upheaval in the United States, the revolutionary movement in Mexico, the naval mutiny in Brazil, the troubled conditions in the Central and South American Republics, the outbreak of Red Radicalism in Great Britain, the growth of Socialism in Germany, the volcanic condition of the French masses, the recent disturbances in Russia, Egypt, Persia, and India, it is plain that the whole world is getting out of temper and out of tune.

## Sifton, Hedging, Gives it to Be Understood that A. and G. W. May Yet Be Constructed

Edmonton, Nov. 19.—It may be accepted with a great deal of certainty that Sifton does not propose to construct the A. G. W. R. unless some very much more satisfactory proposition than at present exists is presented before the matter comes to the attention of the House. There has been a great deal of talk to the effect that the Canadian Northern and the Grand Trunk Pacific were anxious to get hold of the food and these companies would make some proposal. This is possible, but not probable.

Although Premier Sifton has not yet taken the members fully into the confidence regarding his policy in the A. and G. W. matter he is expected to do so at a caucus to be held on Monday night, but was postponed until next week. Many of the members left yesterday afternoon for their homes.

What does the Premier propose if he does not propose to build the railway?

What will he do with the \$7,400,000 lying idle in the city banks?

The province now has a debt amounting to close upon \$4,000,000 and it is said that the premier will appropriate the A. and G. W. money first, towards paying off the debt and second for the completion of various large buildings in the province and the construction of necessary large bridges and trunk roads through the province. Of the \$4,000,000 debt, \$1,400,000 is an overdraft from the Imperial Bank. The Parliament Buildings at Edmonton have cost over \$1,000,000, when the estimate for the completed buildings was \$2,000,000. Various other public buildings in the province, including the normal school at Calgary, have

He made no confession or statement of any description before his execution.

Abolish the Cause, and Misery and Distress of Indigestion Will Vanish

Can indigestion be cured? Hundreds of thousands of people who suffer from belching of gas; biliousness, sour stomach, fullness, nausea, shortness of breath, bad taste in mouth, foul breath, nervousness and other distressing symptoms, are asking themselves that question daily.

And if these same doubting dyspeptics could only read the thousands of sincere letters from people who once suffered as badly as they do now, but who have been quickly and permanently cured by the use of Mi-on-a, the mighty dyspepsia remedy that cures by removing the cause, they would go to Gaetz-Cornett Drug & Book Co. this very day and get a large box of Mi-on-a tablets, and start themselves on the right road to health at once.

The price of Mi-on-a tablets is only 50 cents, and Gaetz-Cornett Drug & Book Co. guarantee them to cure indigestion, or money back.

For sore throat or soreness people will find in Mi-on-a a maker of flesh and blood, because it causes the stomach to extract more nutritious matter from the food, which quickly enriches the blood.

## OPPOSITION TO BRAZEAU C.N.R. CHARTER BY RIVAL INTERESTS OVERWHELMED

Indications are that Legislature Will Pass Measure Permitting Road to be Built.

(Special to the Daily News)  
Edmonton, Nov. 25.—In five divisions in committee of the whole house yesterday afternoon, opposition to the C.N.R. BrazEAU charter was overwhelmed and defeated, after a fight waged between opposing members which was fully as warm as the light fought in the railway committee the day previous by the opposing railway interests.

When the house arose, the committee of whole was still considering the main clause of the bill, that relating to the route, which is the clause upon which the whole fight, both in the railway committee and in the whole house, had centered.

A motion by Telford, of Leduc, to compel the C. N. R. to go north of Snake Lake, which was the route proposed by the Alberta Central, the opposing railway, was defeated by a large majority and Michener's amendment to leave the choice of the route to the minister of railways which in this case is the Premier himself, was being considered when the Speaker left the chair. The fight will proceed today and it is also likely that Michener will also be defeated, as the House appears to be generally in favor of the bill, in spite of the claim of Bennett that the Legislature has no constitutional right to pass legislation granting a charter for a road sixty miles of which have already been built under a Dominion charter and a portion without Dominion approval and ratification.

There will be a final decision on the bill when it comes up for the third reading. Bennett will force the House to this division. He was defeated yesterday on three motions in committee of whole, and is determined to have the division, where every member will have to vote. There is not the least doubt that the bill will carry, as there are only four or five members opposing the measure as it stands.

The first division strange to say came up on the question of the location of the head office. The bill provides for the head office in Edmonton or in any other part of Canada that the company desires. "Let us have at least a little respect for ourselves and keep the head office of this company in Edmonton," said Mr. Bennett, and moved to have all the words after Edmonton struck out. The motion was defeated on a vote of 10 to 11. George Hoadley

## REQUEST THAT CUSHING BE MADE PREMIER WENT UNHEEDED BY BULYEA.

Details of the Famous Red Deer Caucus are Brought to Light.

Edmonton, Alta., Nov. 25.—Was Premier Sifton called to take the reins of power by Lieut.-Governor Bulyea in spite of the fact that the insurgents of the legislature last spring gave his honor special notice of the fact they had chosen W. H. Cushing?

This would appear from correspondence that was laid upon the table yesterday in the legislature relating to the resignations of the Rutherford administration.

There were only three documents. All that really related to the resignation of the cabinet was a short, simple letter from Dr. Rutherford to the lieutenant-governor enclosing his resignation as premier, minister of education, minister of railways and provincial treasurer.

But the document that creates most interest is a letter forwarded to his honor from the caucus of insurgents held at Red Deer April 30th, in which W. H. Cushing was chosen leader of the insurgents.

The letter contains the interesting item that E. Michener, now the leader of the Conservative party in the legislature, was one of those in

the caucus who voted for Cushing as leader. That is, Mr. Michener last spring acknowledged Mr. Cushing to be his leader in the house and supported him as premier.

One letter records the proceedings as follows: "Moved by J. B. Holden, seconded by Dr. Warnock, that Hon. W. H. Cushing be elected leader of the insurgents in the legislature."

"Moved by Dr. Warnock, seconded by Chas. Stewart, that John A. McDougall be requested to wait upon Lieut.-Gov. Bulyea and notify him of the choice of the insurgents."

The document was signed by the following: Messrs. McEwen, Michener, Buchanan, McKenny, Campbell, Glendinning, Holden, Smith, Warnock, Boyle, Stewart and Roberts.

The only other document that was brought down was a letter from the Calgary Liberal executive to Hon. Mr. Cushing stating that since the names of other gentlemen had been mentioned as possible premiers, the executive signified their support of Mr. Cushing for premier.

The papers were brought down at the request of Mr. Bennett.

faith of the lieutenant governor. If he is not open to suspicion, as the bedfellow of a discredited political administration, Lieutenant Governor Bulyea has at least committed an act of colossal stupidity sufficient to warrant his recall."

## A LONG WASH DAY.

It Lasted a Week, but Came Only Four Times a Year.

Every one has heard of the German and Dutch method of accumulating soiled clothes and of having a wash day only two or three times a year. Not every one realizes, perhaps, that the custom was brought over to this country from Holland and that the Dutch settlers long continued its practice.

In these days of the ever ready laundry it is strange to find of the laborious period which came to our New Amsterdam ancestors four times a year.

Heleen, Everson Smith tells about it in "Colonial Days and Ways." The custom of quarterly clothes washings was maintained notwithstanding our summer heats and the immense quantities of clothes necessary to keep up the state of cleanliness required by Dutch institutions.

A New Englander who had married a citizen of New York writes in 1700 of this practice, which was undoubtedly strange to her.

"Grandmother Blum is so deep in her quarterly wash this week that she has time only to send her love."

The washing was done in an out-house called the bleekery, where the water was boiled in immense kettles and all the other processes of the laundry were carried on. The work required not less than a week, frequently two weeks.

During the time preceding this cruelly hard labor the soiled clothes were accumulating in very large hamper of open basketwork. This custom originated the necessity for the great stores of linen with which every bride was provided.

PARSLEY SUPERSTITIONS.

Sinister Beliefs Associated With the Plant in England.

Many superstitions are connected with the herb parsley, probably through an ancient Greek practice, the graves of the dead being strewn with it and the plant thereby gaining a sinister significance.

In Hampshire it is considered very unlucky to give a root of this herb away, since they say that if it be done ill luck will fall upon them.

In Devonshire parsley is likewise to commit a serious offense against the guardian genius who presides over the plants. In Suffolk it is said that if parsley be sown on Good Friday it will grow well and flourish, but if it be sown on any other day it will not come double.

In Shropshire they have a saying that where parsley grows in the garden "th' misale is master." In Buckinghamshire parsley is regarded as a somewhat uncanny herb, and an old under one's arm was an omen of bad luck.

It was necessary to sow parsley for nine times before one could get any to grow. This saying I have heard later in Shropshire, where they say the devil takes all but the last. Likewise, too, in Shropshire they say that to transplant parsley will bring about a death—Westminster Review.

An Oversight.  
To impress on young children just what should and should not be done and why is among the most trying problems of parents, as evidenced by the recent experience of a West Philadelphia mother.

Last Sunday she asked her small son, aged eight, to carry a chair for her from the dining room to the parlor. He started off willingly, but in the hall he tripped and fell. Amid the crash could be heard the boy giving vent to utterances that would have done credit to a pirate of ancient days.

The mother was taken by surprise and was greatly shocked. She gave the boy a long and serious talk on the subject of profanity. This apparently did not make the right impression, for when she concluded the boy, added to her discomfiture by exclaiming, "I am sorry I swore, mamma, but I forgot it was Sunday."

Thackeray on Fame.  
Thackeray's literary work did not help him much when he sought to enter the house of commons. The Rev. Frederick Merrick in his "Memories of Oxford" tells of a dinner given when he stood as a Liberal for that city: "I remarked to him that his must be a special experience, as he was known by name to most of those whose votes he canvassed. 'Now he said, laying down his knife and fork and holding up a finger, 'there was only one man among all that I went to see who had heard my name before, and he was a circulating librarian. Such is my fame!'" This was in 1857, ten years after the publication of "Vanity Fair."

New Family.  
"Mamma," asked the little boy, "who are the Highwaters?" "Highwaters?" answered the mother. "I don't know any such family. Why do you ask?"

"Well, I heard Mr. Perkins ask papa if he'd be over to the little game to meet and play with the boys in spite of Helen Highwater."—Chicago Post.

A Morning Call.  
Swanson (bashfully)—Is Miss Tremmer in? Housemaid—She is, sir, but she is engaged. Swanson (who had settled this the evening before)—Yes, I know. I'm the young man.

A Specialist.  
A composition, on being recomposed with for not having properly punctuated his work, replied, "I am a sutor, not a pointer."

## MORE POWER TO HIS ELBOW.

E. Michener has, by the bold and fearless stand he has taken in the legislature, sprung into prominence as one of the leading politicians of the province.

He has forced the hand of the government on the question of provincial rights and in two of the best addresses ever given in the house, has compelled the premier to state he is in favor of the province controlling our resources.

The Liberal party is not sure where it stands. Bromley-Moore, a Liberal, brings in a motion for control of a section of the resources of the province. Mr. Cornwall, another Liberal, backs him up. Other members of the party have brought in motions along the same line.

The fact of the matter is, as the News has already stated, the lands the minerals, the timber, and other resources of the province should all belong to the province, and no good reason has ever been put forward by the Liberal party why such should not be the case.

The province is overwhelmingly in favor of this policy, and Mr. Michener is the first man who has been able to put the question in its true light before the members of the legislature, and the people generally throughout the province. We hope to publish Mr. Michener's speech in full next week on this important question.

R. B. Bennett, M.P.P., in the legislature charged that Chief Justice Sifton received \$20,000 to come down from the bench and lead the Liberal party in this province. We have not as yet noticed a denial of this statement by Premier Sifton. The charge is of so grave a nature that it should be investigated and probed to the bottom. We must have clean men at the head of affairs in this province.

## FIGHTING FOR THEIR LIVES

The Members of the Cabinet are Going the Way of all Flesh But Struggling On

Ottawa, Nov. 26.—The Government has never faced so serious a situation as the present since it came into power in 1896. So dependent has Sir Wilfrid Laurier been on the counsel of Hon. W. E. Fielding in constructing legislation, and so often has the finance minister pulled him out of a tight corner that the loss of Mr. Fielding to the Premier will be of the most serious nature. The Premier's first lieutenant is the ablest man in the Liberal party. He may lack the spectacular personality of some others, notably the Premier himself, but the fact remains that he has been the main stay of the Liberal party during the last fourteen years. Without him the Administration is a rudderless, storm-driven craft. It is stated that Mr. Fielding may be able to return to active duty next January, but mean while there is little prospect of this. It is more likely that he will not be back in Ottawa for much longer. It is understood that he has been advised to rest for about a year.

Another weakness which has developed is that the Secretary of State has been contrived to awaken the hostility of the French-Canadians, especially those of the Nationalist persuasion, and that they have sworn to defeat him at the next election. It is admitted that he cannot be elected in Russell again, but it is stated that the party will find an Irish Catholic constituency for him. It is, obvious, however, that no political party would stick to any man who was proving a weakness to it. It is well known that there has been a battle royal between Mr. Parmelee

the King's printer, and Mr. Murphy. It is understood that the Secretary of State tried to get Mr. Parmelee dismissed, but this evoked a storm of protest. Mr. Parmelee is a former Quebec member, and if dismissed would assuredly enter the House again. The public accounts committee will reveal much this session, and it is promised that there will be a furious time over the Printing Bureau Scandal. Men were dismissed before they had a chance to defend themselves, and it is freely stated that when Mr. Murphy found that the enquiry was leading to a revelation of the scandalous means taken by the Government to raise campaign funds, he stopped, and contented himself with making accusations of some of the employees by declaring them incompetent. Therefore they were fired. 'It is pointed out that this should have been the function of the postmaster general, who was not given the power by the minister in charge, Mr. Murphy.

Another disappointment to the Liberal party is that Hon. Rodolphe Lemieux, the Postmaster General, is in South Africa, and will not be here until some time in January. This lessens still further the fighting strength of the Government.

The situation is further complicated by the result of the Drummond-Arthabaska election. Mr. Brodeur has lost, and the Quebec members generally are resenting the position in which they have been placed by the Government over the navy bill.

From Ministers such as Messrs. Pugsley and Graham not very much help can be expected from them by the Prime Minister. They are kept exceedingly busy minding their own affairs. Indeed the former will be one of the Ministers who will not lend much credit to the Government's version of the session, as there are one or two matters with which he has been connected that will ensure some warm debating and exercise all Mr. Pugsley's wits to defend.

As to the others, Mr. Aylesworth is too deaf to be of any use in the House, and has been known to debate a subject that was not under discussion. Mr. Patterson has reached the "slipped case" stage. Mr. Mackenzie King is green. Sir Frederick Borden is tired of politics. Mr. Brodeur is ill. Sir Richard Cartwright is hors de combat, and Mr. Fisher is no use on general occasions.

In a word the Cabinet is done. They have had their day, and it is past. They are going the way of all flesh.

## STOLE THE GOVERNMENT'S THUNDER

A Smart Move Made by Arthur S. Meichen, the Young Member for Portage La Prairie, Man.

Ottawa, Nov. 25.—Arthur S. Meichen, the young Conservative member for Portage La Prairie, Man., stole a march on the government the opening day of the session with the result that the Conservatives are jubilant while the supporters of the Government are correspondingly dejected.

For years the Government has posed before the country, and the west particularly, as the low tariff party, while still preserving high tariff. To accomplish this they have made a blocking move. For four years they have put up W. E. Knowles, of Moose Jaw, Sask., to place upon the opposition paper a resolution calling for a reduction on the duties on agricultural implements. For four years, therefore, this resolution has lain on the order paper, yet not a sound has been uttered regarding it. It has had the effect, however, of preventing the Opposition from discussing it. To understand this it should be said that no one can open up a question so long as there is a resolution on the order paper covering exactly the same position.

However, Mr. Meichen, by a little smart work this year, got ahead of Mr. Knowles, and gave first notice of his resolution. Thus the Opposition will be able to bring up the subject in the House. Sir Wilfrid Laurier will be compelled to declare his policy in the matter, and will be in a serious position. He declines to act upon his declaration,

that is if he agrees with the resolution. He will be in a serious position also if he disagrees.

This is the first bombardment of a session which promises to be a terrible battle for supremacy. The resolution reads: "That it is the opinion of this House, a substantial reduction in the import duties on agricultural implements is now due to the agriculturalists of Canada and in just accord with the true ends of a protective tariff."

## APT SIMILES

The Editor of the Renfrew Journal Uses Them to Good Advantage

The Editor of the Renfrew Journal is fond of apt similes, and he uses them to good advantage, as witness the following clever editorial: "The Indians have a saying that a dog once chased a bear around a tree. Faster and faster went the pair until at last the dog chased the bear so fast around that tree that the bear caught the dog. This is just about what happened to Sir Wilfrid Laurier in Quebec. For years he has been using the race cry in Quebec to serve his purposes, or at least he has stood back and taken the advantage of the race cry others using the cry. This procedure has resulted hitherto in a practically solid Quebec for Laurier, but recently the bear has been chased too hard, and in the Arthabaska and Drummond election last week the dog got caught."

## A NEW ERA BEGUN

Mr. Borden and His Brilliant Supporters will Drive Out Graft and Corruption

When the house opened last week there was presented to the members and the country at large the most drastic and complete reorganization that has been made in either political party since the days before Sir John Macdonald died. Mr. R. L. Borden, the Opposition leader, faced the Government with an entirely new bodyguard. It is the strongest force that has ever been gathered under the leader of an Opposition in the Canadian parliament. It spells the beginning of the end of the Laurier administration.

The men he has chosen to guide the councils of the party directly are men of calibre who have made their marks in other walks of life besides politics. They command respect for the success they have achieved before entering Parliament. Therefore they are certain to make the fight of the Conservatives to win power one of the most spectacular this country has witnessed.

Their names are familiar to every Canadian: George H. Parley, T. W. Crothers, Charles A. Magrath, John Stanfield, Dr. Roche, A. S. Goodve, and others. It is worthy of notice that each of these men bears the mark of a chief. Mr. Borden, in that they are men of lofty principles and strong convictions. It has been said that Mr. Borden is far too honest a man to be a politician, and that Alexander Mackenzie was a failure because of his very integrity. But Mackenzie did not have the same power behind him that Mr. Borden has.

The significance, therefore, of the Conservative reorganization is that Canada is approaching a new era in her public life. Mr. Borden and his bodyguard of brilliant supporters will force graft, corruption and immorality in public dealings out of the national life in Canada, and wipe away the blot that stains her name among the citizens of the British Empire.

## MICHENER DOING WELL

(Calgary Herald.)

The Albertan, which has accepted the change of front of the premier and most of his following, including the eloquent minister of agriculture, on the question of natural resources of the province, has commenced a campaign of recrimination of Mr. Michener of Red Deer, the Conservative leader, because he did not inform that paper at the time of his election, precisely what his ideas were in provincial politics. At the time that Mr. Michener was elected to the leadership of the Conservative party the Albertan threw a choice bouquet at his feet and wished him good luck in the undertaking of an arduous task. But at that time it was thought that Mr. Michener wore a pair of patent leather uppers and was very adverse to soiling his shoes on political mud. Since this, however, Mr. Michener has shown that he is not content to be a figure head and that he means to lead the Conservatives to some purpose. Hence the daily nag of Rutherford, Riley and other nonsense.

Mr. Michener has probably been long enough in the political game to know that the more space he can capture daily in the opposition press, the better politician he is. Go on, Mr. Michener, until you get three columns instead of one.

Dan Clausen and A. Eckford were at Pitox last week at a meeting called to discuss the rural telephone question. It was decided to petition the Government for a line from Red Deer to Leslieville, via Sylvan Lake and Pitox, with a branch to Eck-

ville. Those interested will find a petition in the store.

## COUNCIL MEETING

The regular meeting of the Town Council was held Thursday evening last, Mayor McKee in the chair, and Councilors Gaetz, Walliver, Caracallen, Tallman and Alford in attendance.

Geo. Harcourt, Dep. Min. of Agric., asked for number of animals in municipality.

Chief Rothnie's resignation was read.

M. A. Munro, secretary, informed the Council there would be two vacancies on School Board this year.

T. W. Quayle, of the Claresholm Review, asked for information re lighting system. Information given.

J. Botterill, on behalf of H. W. Trimble, made an offer for lots 8 and 9, block 24, belonging to the Town of Red Deer, for the sum of \$500. Mr. Trimble proposes erecting a creamery and other kindred industries in this block.

W. J. Botterill said the Trimble Creamery Co. wanted to build a creamery, cheese factory and cold storage building that would cost all the way from seven to ten thousand dollars. There was outside capital going into the enterprise.

There was practically no smell in connection with the factory and they would want water and sewer connection. They would not be in a position to start up for at least a year.

Councillor Alford was not anxious to sell lots now; he would rather buy.

Councillor Caracallen was not sure

that Nanton Avenue was a good location for such a factory. He thought this part of the town was held as a residential street. He did not think a person would like to live next door to a creamery. He would like to see all industries located in the lower portions of the town, but he did not wish to oppose the scheme.

Councillor Gaetz did not know that we could confine industries to any section of the town. If the price was reasonable and the industry a worthy one, he would be in favor of the application, and there was no doubt the industry was a good one.

Councillor Tallman favored granting the request of the Trimble Company, but he was in favor of having them start work on the building in the spring.

Councillor Walliver favored selling the lots, as we were getting value for them. We had no law restricting manufacturers to any portion of the town.

Councillor Galbraith entered and took his seat.

Councillor Galbraith wondered if it would not be wise to lease these lots for say twenty-five years, to the Trimble Company. If the town grows the building will have to be moved in ten years.

Councillor Tallman contended no person would erect a fine brick building on a leased lot; the idea in his opinion was out of the question.

Moved by Councillor Tallman, seconded by Councillor Gaetz, that the offer for lots 8 and 9, block 24, of \$500 on terms and conditions submitted by Mr. Botterill on behalf of Mr. Trimble, be accepted, providing the building to be erected there

on shall not cost less than \$7,000 and be built of brick, concrete or stone, and the further covenant that in case property is not used for the express purpose submitted that the lots revert back to the town at original cost plus taxes, construction to be commenced in year 1910 and completed by July 1911, otherwise the contract to be null and void, and that a by-law be prepared to make the sale thereof to Mr. Trimble.

Carried, all voting for motion except Councillor Alford.

Councillor Galbraith moved, seconded by Councillor Gaetz, that the Town solicitor be requested to report as to any reason why it is impracticable to lease town property for manufacturing or other purposes, and what steps the town should take to remove the practical difficulties in the way of leasehold of town property for these purposes. Carried.

COMMISSIONERS' REPORT.

The Commissioners brought in the following report:

We have engaged the Lyric Theatre for the annual ratpayer meeting on Thursday, Dec. 1st, at 8 p.m. Dodgers will be out to-morrow, advertising this.

Mr. Hughes, of the Provincial House numbering system, was in town recently explaining his system. To number all the houses and streets will cost nearly \$300.00 on his terms. He also agrees to take a census. We recommend that no action be taken on the matter, but that it be left to the new Council to deal with, as it involves a large sum, and we can take a census by the police without cost.

On the 14th inst. Chief Rothnie re-

ported that he had been offered the position of Chief at Kamloops at a salary of \$110 per month to start with. He asked to be relieved of his duties here unless we could raise his salary here to near that amount. After consulting all members of the Council it was agreed to let him go, and to advertise for a new chief. We have received 15 applications, which we lay before you for your consideration. Foreman Millin has been attending to the police duties since this week.

The case of H. Reinhold and Bank of Commerce vs. Town of Red Deer was taken up last week and was finished, except for the arguments of Council, which will be heard at Calgary in about two weeks.

Engineer Miles came down last week to lay out the work for the sewer on Gaetz Ave. north. He advised strongly against laying any wooden water mains on 1st St. North, as this will shortly be a business street and iron pipes should be laid.

On the 21st inst. the Executive of the Board of Trade met the Council to discuss the publicity campaign. It was decided to go on with it at once.

As some new subdivisions have recently been made close to Town which will necessitate new maps being got soon, we recommend that the price for the remainder of the old maps be reduced to \$2.00.

We recommend that a rebate of \$2.48 be granted to K. M. Byers on water service No. 120. Water rates to this amount were paid last year after the water frontage tax had been collected. Also that the Methodist church be charged \$10 per year

for organ connection, and the milk cooling plant \$15 per year.

We submit herewith accounts for authorization to pay.

We submit for your consideration by-laws to provide for cleaning of snow off cement walks, and to amend certain other by-laws.

Report adopted without amendment.

CHIEF OF POLICE.

A large number of applications were received and read for the position of Chief of Police. M. L. Roche, a resident of Red Deer, was appointed to the position. Mr. Roche is an old policeman, having had seven years experience in one of the large cities of the east.

ACCOUNTS.

The following accounts were passed:

Canadian Pac. Ry. Co., \$22.21; Geo. Rothnie, \$42.50; Merchants Bank, \$1203.63; Great West Lumber Co., \$24.80; S. Millman, \$26.50; R. E. Laurence, \$2.25; Geo. Bell, \$12.50; W. Benshaw, \$7.00; G. Healey, \$14.00; Alberta Pac. Elev. Co. \$1.30; J. Halstead, \$20.00.

BY-LAWS.

Two by-laws were passed. One was to provide for the cleaning of the concrete walks of snow, making it compulsory for ratepayers to clean the concrete walks in front of their property. If this is neglected it will be cleaned and cost charged up to property.

The other related to the appointment of the chief of police and specifying his duties.

The Council decided to lay over the question of numbering the houses to next year's Council.

Council then adjourned.

## We Change our System to Reduce the Cost of Living

THE ever-increasing cost of living makes the question of purchasing general supplies for the home a serious one, and most vital in its effect on progress and prosperity.

I have made a very close study of the conditions of trade and supply, always buying our stocks in the best market for cash, and keeping the retail price to the lowest possible point, and I have been fully convinced that buying and selling for cash is the only correct method of doing business—the only condition under which the lowest prices can be maintained—and we have therefore decided to place the business of the W. E. LORD COMPANY on an absolutely cash basis on January 1st, 1911.

In this we will save a very large expense item in stationery, postage, clerical work in keeping the accounts and depreciation in accounts. This, with other savings, will be deducted from the present selling prices of our stock, making our prices decidedly lower than has ever been possible under the present arrangement.

We will pay cash for produce instead of receiving it on account, as heretofore, and we will require settlement for all purchases when the goods are delivered.

We believe this arrangement will be an advantage, without inconvenience, to the majority, if not all, of our customers, even to those in the surrounding districts who depend on their produce for their supplies.

We fully appreciate the liberal patronage we have received under the present arrangement, and undertake to furnish you with your supplies at a smaller cost under the new system.

There will be no discrimination or partiality. Every one will be treated alike, with the same price and our best service; and in declining to permit deliveries without settlement there is no reflection on your credit.

This store must continue to be the most profitable and satisfactory trading point within the district which it serves, and we hope to make its influence extend to a larger territory under the new system.

Assuring you of our sincere appreciation of your esteemed patronage,

I remain,

Yours for Economy and Progress,

W. E. LORD.

For Every Dollar spent in our store between December 1st and Xmas we will present a coupon good for five cents in our Toy Department.

## Local Improvement Convention

Some of the Resolutions Passed.

The Provincial Convention of Local Improvement Districts, held last week in Red Deer, transacted a great deal of business.

A number of important resolutions were passed and will be presented to the Government. Some of these were:

(a) That the following clauses be added to the local improvement ordinance:

(b) Before any property be registered as a subdivision, that the registrar compel the owner or agent of such subdivided property to furnish a statement from the secretary-treasurer of the local improvement district in which sale land is situated, showing that all taxes levied against such property have been paid.

(c) In the event of a city, town or village extending its boundaries, such city, town or village shall pay to the local improvement district all arrears of taxes due in such area, and such arrears shall become an asset of the said city, town or village.

Resolved, that the Provincial Government be asked to pass legislation to admit the province of being divided into areas of about nine townships and provision made for the residents of these areas to be organized as municipalities or local improvement districts as the majority wished.

Whereas it is absolutely essential both for the business development of the province and also the moral, social and educational well-being of the rural population, that good roads be provided as speedily as possible, so as to give farmers and settlers reasonable access to markets and to places of worship, schools and other social centres.

Therefore, be it resolved that the amount received by the province annually from the Federal Government in lieu of lands is for the land, and should be expended for the benefit of the land, in building up the rural roads of the province, and this convention respectfully request the hon. minister of public works to introduce legislation to this effect at this session of the legislature.

The election of officers resulted as follows: President, Wm. Mason, Bon Accord; vice-president, H. Greenfield, Edison; secretary-treasurer, J. McLeod, Blackfalds; directors, F. J. Moorhouse, Calgary; E. Hillier, Twin Butte; E. J. Fream, Innisfail; J. O. Schultz, Strathmore; D. A. Kennedy, Vegreville; E. Finckh, Wainwright; H. W. Wright, McLeod.

The executive council consists of the president, vice-president, secretary-treasurer and directors Moorhouse and Fream.

Calgary was chosen as the place of the next annual meeting.

## FUNERAL OF THE LATE TOM BROWN.

The Grundy Republican, printed at Grundy Center, Iowa, speaking of the funeral of the late Tom Brown, says: "Lyle accompanied the remains of his father to Grundy Center. He was met at Reinbeck by his brother Arthur and also a brother-in-law of Mr. Brown, Mr. Clayton Dixby, of La Porte, Iowa. At Grundy Center they were met by relatives and friends and the body was taken to the home of Mr. and Mrs. James Corrie.

A large congregation gathered at the M. E. church Nov. 12th at two o'clock, where services were conducted by the pastor, Rev. Keeler. At the request of relatives and friends, Mr. R. J. Williamson, who for many years was closely associated with Tom Brown, spoke in behalf of Tom as a man, a citizen and a friend. At the close of which the G. A. R., who went in a body, conducted their regular service. The casket was opened in order that old time friends might view, for the last time, the kindly features

## LAWYERS IN GERMANY.

They Cannot Advise, and Their Fees Are Fixed by Law.

The German law fixes the exact fees which a German attorney has to claim for all kinds of professional work, and the Rechtsanwalt can charge neither more nor less.

These fees apply to all matters of the civil code and of criminal cases. The amount, according to the Green Bag, depends exclusively on the value of the object of contention.

It is an old though still unfulfilled wish of German lawyers to have a new fixed list of fees, not made after the old and low standard of the year 1870, but made with consideration to the changes—the numerous decided changes—which have taken place since that year.

The Rechtsanwalt is attorney and counselor at law all in one (in England solicitor and barrister). The Rechtsanwalt can never be a business man, as is the case in the United States. The exercise of the law is not to be considered a calling of profession, but is to be looked on more as a public office. According to the lawyers' code of the 1st of July, 1873, a lawyer is charged publicly with certain duties.

He is obliged to have his residence in the town or district where he is appointed to called residence duty. Further, he must conduct himself in and out of office in a way befitting his professional and social standing—i. e., duty due to his rank. Thus a lawyer is forbidden to advertise in newspapers, by canvassing, etc., or to buy or take over a practice already made as being unworthy of his calling.

His position in society is between officials and scholars, and through custom and law he is compelled to keep the position to the last degree. This compulsion to keep one's rank has given rise to the existence of committees called *anwaltskammern*, whose duty it is to keep a strict watch that no lawyer dishonors his calling. These committees have a strict code of punishment, ranging from complete expulsion from office to the last degree. In this way the lawyers in Germany have a good and honored position. In fact, there is scarcely a country in which the lawyer enjoys more respect and confidence.

## TASMANIA.

Nicknames Applied to the One Time Convict Settlement.

"Tasmania is perhaps the most interesting of the states of our commonwealth," remarked the Australian. "It is a large triangular island lying to the south of Melbourne and was once a convict settlement.

"The climate is delightful and the soil remarkably fertile. The island is practically one large orchard, where peaches, apples, cherries, etc., are grown in sufficient quantities to keep the adjoining continent supplied, with some left over for export to England. As fruit trees do not require much tending, leisure is a notable characteristic of the inhabitants, and Tasmania is known throughout the antipodes as the land of lots of time' or the land of sleep a lot.' It is also called 'the jam country,' and the natives, usually termed 'jam eaters.' This is on account of the presence of an enormous cannery in the island, where some of the orchard products are converted into jams, jellies and preserved fruits.

"But this by no means ends the list of Tasmanian nicknames. Two Dutch explorers—Tasman and Van Diemen—used to do with the discovery of the island, and although the name of Tasman is now used, it is often referred to in old school books as Van Diemen's Land. We find it amusing to twist the latter name a bit and call the Tasmanians 'demons,' which is a shame, as they are the mildest and best fellows in the world. They speak of themselves as 'Tasies,' and that may be accepted as their unofficial designation."

The Test of Greatness. When Elliston went from London to his own theater at Birmingham he was known to scarcely by a member of his own company. On reprimanding one of them sharply the irate actor threatened to kick him off the stage. He rushed to the stage manager and asked who that man was.

"Mr. A.," said the manager. "A great man, a very great man," said Elliston. "He threatened to kick me, the lessee of Drury Lane. Such a man as that must go to London. He mustn't waste his energies here." And he engaged the actor on the spot for Drury Lane.

His Method. The little girl who was visiting at a neighbor's house had gone out to look at the horses. "Here one of them," she said, "that has watery eyes and coughs and laughs his head just the way papa's horse did last summer."

"What did your papa do for his horse?" asked the owner of the animals. "He sold him," was the innocent answer.

Rules For Dress. Dress yourself fine where others are fine and plain where others are plain, but take care that your clothes are well made and fit you, for otherwise they will give you a very awkward air.—Lord Chesterfield.

The Object of Dispute. "Were you a bull or a bear when you went into 'Wall street?'" "Neither." "I was one of the fellows they were both after."—Exchange.

Our generosity should never exceed our abilities.—Cicero.

The School Board met in Mr. Payne's office Thursday afternoon and passed a number of accounts and received a report from A. R. Gibson on the provincial meeting relating to the Boy Scout movement at Calgary. The chairman and Mr. Simpson were added to the provincial board. The Board decided to offer the township need of a school for an entire block of land for a school site, after which the Board adjourned.

The sale at Mr. J. Wessles' Burnt Lake, was highly satisfactory, there being over one hundred people present and everything sold well, as may be judged by the total amount being over sixty per cent more than the owner anticipated. So that, although Mr. Wessles is leaving, we may expect him back to Alberta the province of sure progress.

His wild hay sold for ten dollars per ton in the stack and straw sold as high as two dollars per acre, oats thirty-five cents per bushel. His horses too sold well, and auctioneer Mott thought the West alright for a sale.

The spirit of Christmas is beginning to show itself, and the best evidence of that fact is a handsomely illustrated jewellery catalogue now being distributed by H. H. Hamer. It is a decided advance over anything previously attempted in a local way and is equal in printing and illustration to the best efforts of the big mail order houses. It is intended to emphasize the advantage of doing all your buying at home, and shows by actual comparisons how you can save money by dealing with your local jeweller. This catalogue suggests the appropriate thing for everyone's Christmas, and gives you a chance for deliberate selection with everything guaranteed precisely as represented.

What might have proved a much more disastrous accident than that which happened on Saturday afternoon last, when the steam cylinder blew out of the engine owned by A. D. McKenzie, while working near Mr. Carr's on the Edmonton trail. The engine formerly belonged to W. McDonald. Mr. Van Slyke was running the engine at the time and had a narrow escape, as it was he was bent on the side, as he was almost leaning over the steam chest. A team belonging to A. D. McKenzie became frightened and ran away, his son was badly injured in making a valiant attempt to stop them, he being in front of them at the time. He was stepped on and pulled under their feet, the horses cutting his heel and thigh with the corks.

## Correspondence

Red Deer, Nov. 28, 1910

To the Editor of The News:

Dear Sir,—I see in your last issue that Mr. Mott is again writing to the press on the subject of our Town Councilors supplying goods, doing contract work, and insurance. Now while Mr. Mott may be right about the law, I do not think that a town of this size should prevent its Councilors from competing with the other merchants for a share of the town's requirements, which is a part of their living, and at the same time expect those Councilors to give us the benefit of their time and brains for the proper carrying on of the work of the town. Neither do I think it fair for Mr. Mott to infer that the Councilors are there for the dollar and not for the honor because I do not think that any Councilor could make enough out of town contracts to compensate him for the time he spends, the small amount of credit he gets, and the large amount of abuse, in carrying on the duties of Councilor. I believe that ninety-nine per cent. of men occupying those positions are doing so for honor. The matter appears to me in this light, let our Councilors get all they can, but let them be got by fair and open competition, not by favor. I do not want Mr. Mott to think I am trying to discredit him, but I do think it is where anything is wrong I will support him. He says that he has the figures through the press of the amount each Councilor has received. Let him bring these figures to the Town's meeting next Thursday, and let us compare the prices charged by the Councilors as well as those charged by other merchants. In that way the ratepayers can see if the Town's business has been carried on right or wrong, and if there are any merchants who have a kick on this matter let them come and say so, and stand by Mr. Mott; and I have no doubt if the ratepayers can be shown that there is a wrong being done, that they will attend to the matter when voting day comes round. Now in conclusion Mr. Mott refers to the position of Mayor and recommends Mr. Joseph Wallace, who, I am sure, every one in town respects as a good, straight, honest citizen, but I doubt if he would stand for his health is not good, and he is not a young man; and the Mayor of this town is not likely to get many idle moments during the next year. I favor a young, energetic man, a good sport, with good business ability—a man who will lead, not be led. I think we have such a man in R. B. Welliver; what do you think?

Mr. Editor, I am afraid I have trespassed on your space, but hope you will not turn me down, and thanking you in anticipation, I remain,

Yours sincerely,

WILLIAM H. HADLEY.

Red Deer, Nov. 29, 1910

The Editor of The News:

Dear Sir,—Allow me through your paper to reply to the letter in the Advocate of last week by Mr. Welliver re the statement I made as to his having received payment for business done in some way for the Council. If I am wrong I am quite willing to tender to that gentleman an apology. At the same time I think it quite natural for anyone to conclude, as I did, seeing Mr. Welliver's name among the Council accounts in your paper for Nov. 2nd as having received five dollars and sixty cents.

Of course, if Mr. Welliver did a trip as he suggested he might have done, it should have been put plainly in the account for the trip made, then other than that could not have been inferred.

One other point Mr. Welliver mentioned, as to truth, saying if I wish to be a factor in trying to better municipal conditions, I should be truthful, for which reminder I sincerely thank that gentleman, as know well how necessary it is to be truthful, and always endeavor to be so.

In writing on the town's affairs, I do not think Mr. Welliver or any other person can prove I have ever departed from the truth, and in the case he refers to, I simply based my assertion on the report of accounts as given, which I consider any sane man would do. So, now, if Mr. Welliver wishes to furnish the particulars of his trip, as being a public matter of the town it should not be any secret.

In conclusion I would say if Mr. Welliver satisfies me as to his position in the matter, should be nominated for one of the vacant seats on the Council I shall most certainly support him, and thanking you, Sir, for your insertion, I still remain undaunted in my claims for everything to be done square and above board.

Yours sincerely,

F. MOTT.
